Let's write the future?

BE AN ACTOR OF CHANGE

EMBODY THE BANKING BUSINESS OF TOMORROW

With the transformation of banks, we need to be at the core of the brainstorm for designing how business will be operated tomorrow.

ENSURE A DIRECT LINK BETWEEN THE FIELD AND THE BANK'S GOVERNANCE

Participate in unleashing initiatives by creating a channel of communication from employees to the Board of Directors : we will create an independent application accessible to all SG's employees.

RECONCILE THE STRATEGIC OPTIONS FOR WORK REMUNERATION & RETURN ON CAPITAL

Bring value to our customers and thus rewarding our shareholders with the expected profitability and employees involvement.
We will build it together, in a sustainable vision.
